

**CISA**  
CYBER+INFRASTRUCTURE

CYBERSECURITY AND INFRASTRUCTURE SECURITY AGENCY

**WEBINAR**

## **5G: Security and Vulnerabilities**

Fifth-Generation (5G) technology represents the next step in wireless network opportunities, but it also introduces security concerns.

Join this webinar to learn more about 5G from CISA's cybersecurity and infrastructure security experts, including an overview of 5G technology and the potential risks of 5G adoption and implementation within critical infrastructure.

**October 30, 2019 | 1:00 PM – 2:00 PM ET**
