

CYBER MOUNTAIN

COLORADO SPRINGS

PROTECTING AMERICA'S ACCESS TO SPACE

VIRTUAL FIRST FRIDAY **CYBERSECURITY SOCIAL & MIXER** **FOR APRIL!**

JOIN THE COLORADO SPRINGS CYBERSECURITY COMMUNITY FOR SOCIALIZING & NETWORKING

Connect with local cybersecurity professionals for a casual gathering the "First Friday" of every month beginning at 4 p.m. Join cyber peers to share information and learn about the growing cybersecurity ecosystem in Colorado Springs. No cost to attend.

Our special guest this month will be Chris Gorog. Chris will present on distributed ledger applications for the education and energy sectors. Several years of research by local and regional universities, focused on securing Colorado state records, has culminated in two programs to apply distributed ledger technology to education and energy applications. We'll also have a presentation from Trent Bunnell, Sr. who is an Information System Security Officer (ISSO) in Space Force. He will be introducing the private industry Facebook page "Colorado Cyber Hangout" which is a place to post events, movies, activities, and ideas so we can build a network for IT/Cyber professionals. Finally, we'll have breakout rooms so you can network and socialize with other attendees.

April's Cybersecurity First Friday will be held on-line using Zoom. To attend, please register at the following [link](#).

FRIDAY,
APRIL 2ND
4 TO 6:00 P.M.
